Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor Davis:

Your help is needed to help shape the future of California's Rivers, Bays, and Drinking Water! Here are the possibilities to:

Improve water quality

Promote our watersheds and fisheries

Invest in water conservation to make our communities self-reliant

These intelligent possibilities can be achieved through the "CALFED Bay/Delta" program, a plan to protect and use California's water resources for the next 50 years

I understand the CALFED program ensures :

Invests in water efficiency for at least seven years before
even considering new dams or reservoirs

Restores our rivers, bays and fisheries by providing adequate
fresh water and caring for the land surrounding our rivers.

Improves water quality for people and wildlife by enforcing
Pollution limits

Stops making taxpayers pick up the tab for studies of new dams and
reservoirs that flood valuable habitat and remove needed water from
our rivers

We must take care of our environment. Remember it belongs to ALL of us.

Sincerely,

Laura Woolley Smith
